

FORESTRY CHAINS

OFA forestry chains meet the demands of working in tough logging environments in a variety of ways. They significantly improve traction, thereby reducing fuel consumption and increasing productivity. The chains protect the sides and treads of expensive tires from stones, stumps and branches.

OFA has the industry's widest range of tire chain models with different sizes and patterns. Thanks to

the modern manufacturing, comprehensive central warehouse and global dealer network, OFA products are always available wherever professional loggers need them.

The world's best-selling forestry chain OFA Matti W is the most popular chain for all forestry machine applications.

Which chain for which purpose?

UPDATE
2015

Craftec is designed for soft ground when self-cleaning is needed.

Technical specifications

Tread chain	diam. 13 mm, 16 mm
Stud	diam. 16 mm, 19 mm
Side chain	diam. 11 mm, 13 mm

Craftec

Technical improvements to prevent links from turning around:

Bigger
19 mm studs

Mechanical
resistance

Squeezed
links

Craftec 13 features 13 mm chain links and is suitable for small and medium size forest machines. Craftec is recommended when lightness is especially required.

Craftec 16 is available for all common CTL machines tire sizes and also for skidder tire sizes.
