

# FORESTRY CHAINS

OFA forestry chains meet the demands of working in tough logging environments in a variety of ways. They significantly improve traction, thereby reducing fuel consumption and increasing productivity. The chains protect the sides and treads of expensive tires from stones, stumps and branches.

OFA has the industry's widest range of tire chain models with different sizes and patterns. Thanks to

the modern manufacturing, comprehensive central warehouse and global dealer network, OFA products are always available wherever professional loggers need them.

The world's best-selling forestry chain OFA Matti W is the most popular chain for all forestry machine applications.

## Which chain for which purpose?

# Matti W

Strong traction, hard-wearing protection for today's forestry machines. Matti W meets all the challenges of the professional logging work: It holds and bites where ordinary steel would bend. Matti W is available in 13, 16 or 19 mm chain link diameter.

## Matti W chain patterns

2T

Standard double diamond chain for heavy use. Good grip and self-cleaning.

3T

Triple diamond chain for heavy machine use. Specially designed for 650 mm and wider tires. Excellent grip and tire protection.

3ST

Super tight pattern gives extreme protection for very rocky and difficult conditions. Without studs good choice for light tire protection chain for mining operations.

## Matti W 13

S

SML

SML

Matti W 13 is light weight chain for small and medium size forestry machines. This chain is also suitable for large size harvesters where driving kilometers are less. Two tread patterns, 2T and 3T are available where 3T is specially designed for 650 mm and wider tires. Most of the chain dimensions have a tensioning chain for easier tightening.

### Technical specifications

Tread chain	diam. 13 mm
Stud	diam. 14 mm
Side chain	diam. 11 mm
